PROFESSIONAL SUMMARY

BCA graduate currently pursuing Python Full Stack Developer with GenAI training and working as a Junior Software Engineer Intern. Strong foundation in Python, JavaScript, PHP, HTML, CSS, MySQL and software development fundamentals. Familiar with manual testing, test-case concepts, bug reporting, SDLC, STLC, Git and GitHub.

EDUCATION

Bachelor of Computer Applications (BCA) Chhatrapati Shivaji Maharaj University	2023–2026
Higher Secondary Certificate (HSC) Maharashtra State Board	2023

PROFESSIONAL TRAINING

Python Full Stack Developer with GenAI Institute: Fortune Cloud Technologies, Pune	Currently Pursuing
- Learning Python, Django, HTML, CSS, JavaScript, MySQL and REST API development. - Practising Git and GitHub for version control and collaborative development. - Learning software development processes, debugging and GenAI fundamentals.	

TECHNICAL SKILLS

Programming: Python, JavaScript, PHP	Web Technologies: HTML5, CSS3, Responsive Design
Database: MySQL, SQL, DBMS	Framework: Django Fundamentals
Development: CRUD Operations, REST API Basics	QA Fundamentals: Manual Testing, Test Cases, Bug Reporting
Testing Concepts: SDLC, STLC, Functional Testing Basics	Tools: Git, GitHub, VS Code, XAMPP
Core Concepts: OOP, DSA Basics, Problem Solving	Currently Learning: Test Automation and Selenium Basics

PROJECTS

Multi Trip Ticket Booking System - Developed a full-stack ticket-booking application for bus, train and airline bookings. - Implemented user login, ticket-booking forms, feedback management and MySQL connectivity. - Performed CRUD operations for storing, updating and managing booking records.	HTML, CSS, JavaScript, PHP, MySQL
Mental Health Chatbot - Developed a web-based mental health chatbot for supportive conversations and basic mental wellness guidance. - Implemented user authentication, multilingual support and conversation-history features. - Used MySQL to store user information and chat records with secure data-handling practices.	Python, Django, HTML, CSS, JavaScript, MySQL

INTERNSHIP EXPERIENCE

Junior Software Engineer Intern Cravita Technologies India Private Limited, Pune Status: Currently Pursuing - Selected for a Junior Software Engineer internship involving technical training and hands-on software-development activities. - Currently completing technical training through Fortune Cloud Technologies before starting work on a real-time live project. - Learning and applying programming, database, web-development and software-engineering concepts. - Developing an understanding of debugging, application quality and reliable software development practices.	June 2026 – Present
Cyber Security Intern Quick Heal Foundation Status: Completed - Learned cybersecurity fundamentals, system protection and safe digital practices. - Developed awareness of online threats, vulnerabilities and data protection. - Supported security-awareness activities, documentation and team coordination.	2024–2025

CERTIFICATION
